

Leamington District Memorial Hospital invites you to a:

Fetal Health Surveillance Workshop

Presented by the Regional Perinatal Outreach Program (MNCYN)

Date: October 4, 2016
Time: 0930-1530 hrs
Location: 194 Talbot St. W.
Leamington, ON N8H 1N9

Room: Boardroom, 1st floor

Deadline for Registration:
Sept. 13, 2016

Fee: A fee of \$25 will be charged for non-LDMH staff.

Learning Objectives:

- Provide an overview of the research evidence and SOGC guidelines.
- Describe the physiological basis for fetal health surveillance.
- Discuss acid-base balance and development of hypoxic acidemia.
- Describe the assessment of normal and abnormal uterine activity patterns and the effect on FHR and labour progress
- Discuss the benefits, limitations, clinical situations and the procedure for using intermittent FHR auscultation
- Outline normal, atypical and abnormal parameters of the Non Stress Test and classify accordingly
- Describe the appropriate clinical application of continuous electronic fetal monitoring (EFM)
- Identify the definitions, characteristics, etiology, physiology/pathophysiology and classification of:
 - Baseline rate and variability
 - Accelerations, early/late/variable/prolonged decelerations
 - Sinusoidal patterns
- Practice EFM interpretation.
- Describe appropriate documentation of IA and EFM parameters and findings.

Case reviews / EFM Strip Interpretations
(Group Activity)

Break

Review of Cases and EFM Strip
Interpretations

Summary and Take Home Messages

Certificate of Attendance / Evaluation

****Participants should have completed the Fundamentals of Fetal Health Surveillance online Learning Modules prior to attending.**

Contact Rebecca Ismail (rebecca.ismail@ldmh.org)
to obtain your login information**

**The course is intended for family physicians, RNs, obstetricians, Midwives, and students/residents in these disciplines who want to learn the current, fundamental concepts related to fetal health surveillance. It is designed for:

- New perinatal practitioners who have had recent education / orientation to antepartum and intrapartum care
- Practitioners with clinical experience who want to update their knowledge
- Experienced practitioners and those responsible for teaching others who want a complete review of the subject area.

In most centres across Canada, course participants will receive a Certificate of Completion
