

Huron Perth Healthcare Alliance invites you to a:

Fetal Health Surveillance Workshop

*Presented by the Regional
Perinatal Outreach
Program (MNCYN)*

Date: May 23, 2017
Time: 0930-1600 hrs.
Location: Stratford Hospital site

Room: E1-609 A&B

Deadline for Registration:
April 21, 2017

Fee: HPHA staff - \$35.00
Non-HPHA staff - \$85.00
Please make cheque payable to
HPHA.

Learning Objectives:

- Provide an overview of the research evidence and SOGC guidelines.
- Describe the physiological basis for fetal health surveillance.
- Discuss acid-base balance and development of hypoxic acidemia.
- Describe the assessment of normal and abnormal uterine activity patterns and the effect on FHR and labour progress
- Discuss the benefits, limitations, clinical situations and the procedure for using intermittent FHR auscultation
- Outline normal, atypical and abnormal parameters of the Non Stress Test and classify accordingly
- Describe the appropriate clinical application of continuous electronic fetal monitoring (EFM)
- Identify the definitions, characteristics, etiology, physiology/pathophysiology and classification of:
 - Baseline rate and variability
 - Accelerations, early/late/variable/prolonged decelerations
 - Sinusoidal patterns
- Practice EFM interpretation.
- Describe appropriate documentation of IA and EFM parameters and findings.

AGENDA

May 23, 2017
0930-1600 hours

A.M.

Fetal Health Surveillance Review
Review of Learning Modules

LUNCH

P.M.

Case reviews / EFM Strip Interpretations
(Group Activity)

Break

Review of Cases and EFM Strip
Interpretations

Summary and Take Home Messages

Certificate of Attendance / Evaluation

****Participants should have completed the Fundamentals of Fetal Health Surveillance online Learning Modules prior to attending.**

**Contact Kathy Powers (kathy.powers@hpha.ca)
to obtain your login information****

****The course is intended for family physicians, RNs, obstetricians, Midwives, and students/residents in these disciplines who want to learn the current, fundamental concepts related to fetal health surveillance. It is designed for:**

- New perinatal practitioners who have had recent education / orientation to antepartum and intrapartum care
- Practitioners with clinical experience who want to update their knowledge
- Experienced practitioners and those responsible for teaching others who want a complete review of the subject area.

Participants will receive a Certificate of Completion
