Perinatal Nurse Consultant
SW Ontario Maternal Newborn Child & Youth Network

RE: Instructions re: Ordering Regional Documentation Records

The Southwestern Ontario Maternal Newborn Child & Youth Network has for many years advocated for the use of regional perinatal chart forms as a means to provide better systems integration through improved communication between health care providers across all hospital sites. Regional chart forms are also intended to promote a consistent standard of care. Several regional chart forms have been developed including:

Maternal Transfer Record - # 60215
Obstetrical Pre-Admission Assessment Record - #75035
Obstetrical Pain Management Monitoring Record - # 75036
Labour Record - # 75319
Birth Summary - # 64248
Newborn Admission / Discharge Record - #76879
Neonatal Resuscitation Record - # 68447
Ill Newborn Record - # 72333

These chart forms are can be found under the 'Resources' tab and downloaded from the MNCYN website www.mncyn.ca For the purchase of larger quantities of the chart forms, an account needs to be established with Hospital Materials Management Services (HMMS). To do this contact:

Madhu Lal
Finance Dept.
St. Joseph's Health Care
London, Ontario
Phone: (519) 646-6100 ext. 68232
Email: madhu.lal@sjhc.london.on.ca

Once your account has been established you can place your order using the specific chart form number with Data Group by contacting:
