Instructions:

Prior to the workshop, participants must:

- Review the online Fundamentals of Fetal Health Surveillance – A Self-Learning Manual available at:
<https://ubccpd.ca/fhs-online-manual>
and then
- Successfully complete the online exam.
Please note: The National Fetal Health Surveillance (FHS) Online Exam is available for purchase (\$30) under the "Final Evaluation" tab in the online Fundamentals of Fetal Health Surveillance – A Self-Learning Manual.
- **Download and submit the 'Certificate of Completion' electronically to Sheila Johnston:** sheila.johnston@lhsc.on.ca **by Fri. Sep 20, 2019.**
- Attend the 8-hour in-person workshop

Objectives

Upon completion of this course, learners will be able to:

- Discuss the current guidelines on intrapartum fetal health surveillance
- Review and practice the techniques of FHR auscultation and EFM
- Interpret FHR characteristics from both auscultation and EFM
- Integrate the concepts of acid-base balance and the interpretation of fetal blood gas values in FHR interpretation
- Identify important principles of verbal communication and written documentation
- Outline supportive and corrective interventions for various FHR findings

The workshop is intended for Physicians, Registered Nurses, and Registered Midwives (or students of these disciplines) who have limited experience in obstetrical care and want to learn the fundamental concepts of fetal health surveillance.

Lunch is included in the workshop fee.
Please indicate any dietary restrictions when you check out.
