

**Special Considerations:**

- If greater than 2 COVID-19 +ve patients, cohort patients.
  - o Use rooms 323,324,325,326
- Mothers/infants should be monitored closely for signs of deterioration via EWS (early warning signs).
- Patients require a surgical mask during any transfer (unit to unit, unit to home etc.)
- Any infant transfer out of room to occur in isolette
