

Dear Colleagues:

In light of the rapidly evolving COVID-19 situation and the need for current information that is specific to pediatric populations, The Provincial Council for Maternal and Child Health and [Kids Health Alliance](#) have partnered to create two documents for children, youth, and their families to help address some of the most commonly asked questions. These documents also include information and resources from other thought leaders and organizations in the pediatric health sector.

- **Part 1:** Frequently Asked Questions related to COVID-19 for Pediatrics
- **Part 2:** An inventory of resources from local, provincial, federal and international organizations

These resources can be accessed on the PCMCH website: <https://www.pcmch.on.ca/covid-19-resources-for-children-youth-and-families/>.

We encourage you to share the link with families in your network and have developed Tweets for your use:
