

Covid 19 & Transport

****Screening is both the physician on call & transport team's responsibility to ask****

Does the patient and/or mother:

- Live with, provide care for, or otherwise have prolonged close contact with someone who:
 - Has tested positive for COVID-19
OR
 - Is suspected to have COVID-19
OR
 - Has acute respiratory infection symptoms (new or worsening fever OR cough, OR shortness of breath)
- Has the patient and/or mother had a COVID swab sent and if so for what reason?

If **YES** to any of the above the patient **screened** POSITIVE

If **NO** to all patient **screened** NEGATIVE

**** Transport Team MUST advise paramedic colleagues & Ornge of screen positive at time of dispatch****
