Instructions:

Prior to the workshop, participants must:

- Review the online Fundamentals of Fetal Health Surveillance – A Self-Learning Manual available at:
<https://elearning.ubccpd.ca/enrol/index.php?id=355>
and then
- Successfully complete the online exam.
Please note: The National Fetal Health Surveillance (FHS) Online Exam is available for purchase (\$30) under the “Final Evaluation” tab in the online Fundamentals of Fetal Health Surveillance – A Self-Learning Manual.
- **Download and submit the ‘Certificate of Completion’ electronically to Sheila Johnston:** sheila.johnston@lhsc.on.ca **by Fri. October 22, 2021.**
- Attend the 4 hour in-person workshop

Objectives

Upon completion of this course, learners will be able to:

- Describe various methods of intrapartum fetal assessment, including intermittent auscultation and electronic fetal monitoring.
- Discuss maternal-fetal physiology and pathophysiology in order to better understand clinical management of FHR findings.
- Describe clinical interventions for commonly encountered problematic clinical scenarios.
- Manage risks through improved interdisciplinary communication, collaboration and management.

The course is intended for Physicians, Registered Nurses, and Registered Midwives who have extensive intrapartum experience, or have previously completed the Fundamentals of Fetal Health Surveillance in-person Workshop.
